

Raven "Heart Attack"

Visit "[Heart Attack](#)" on MotoLyrics.com

Power, glory, you had it all
One of the people and you answered the call
Don't try to tell you didn't know
If you had any guts you'd get the hell up and go

Rising power takes you to the top
Rising power no way that you're gonna stop

Heart attack
One way ticket going on the rack
Heart attack

Caught in the act, a real surprise
They know the truth, the camera never lies
You say entrapment, I know the game
You think you're right but you're completely insane

Rising power takes you to the top
Rising power no way that you're gonna stop
Heart attack
One way ticket going on the rack
Heart attack

Rising power takes you to the top
Rising power no way that you're gonna stop

Heart attack
One way ticket going on the rack
Heart attack
