I love you baby  
I didnt use to  
Only when i knew your personality  
I thought you were mineeee,  
I thought you were the oneee,  
So i want to tell you this,

I love you baby  
And if you love me,  
Our love will be true,  
Forever and everrrr

I want you to be my side  
Always and all the time yeah  
But you were never there  
I just want to let you know,

I love you baby  
And if you love me,  
Our love will be true,  
Forever and everrrr

I dont want any girl by your side,  
I want you to be mineeeee  
Love you babyyyy!
