"Part Of The Machine"

Untouchable, intractable
Completely in command
Your word is law
And no-one here
Has dared to make a stand

Surround yourself with your own kind
Cast out the other fools
Corruption sets the currency
And violence sets the rules

You think you got me

I'm gonna stay free
I just don't want to be
Part of the machine - machine
Heretics, unbelievers
Excommunicate
Disagree and raise your voice
And you will seal your fate
But I will take no more of you
Your parasitic world
I'll make you fall by your own hand
There'll be no need for future plans
