"Sold Down The River"

Running from the future
Hiding in today
Consequences obvious
But no-one's getting in your way

Sold me down the river
Take a look and see
Sold me down the river
There's nothing left for me

Slash and burn your birthright
Building to destroy
Going on a one-way ride
It's self-inflicted genocide

Sold me down the river
Take a look and see
Sold me down the river
There's nothing left for me
Who wants the world ?
Take a good hard look around you

Buried in your wasteland
Chocking on your air
No deposit, no return
No solution - do you care ?
Sold me down the river
Take a look and see
Sold me down the river
There's nothing left for me
