child kisushite baby love child moo ichido -----  
----- When I kiss you I smell something sweet  
Like a flower A sweet smell like vanilla I get dazed and  
sleepy I become a child When I hold you I smell  
something sweet, Your long hair sways in the wind.  
Words of love Ticklish everytime I whisper I become a  
child When we make love, I smell something sweet  
When we make love, I get tired and... When I close my  
eyes, like a flower bud I become sleepy We are (baby  
love child) Foolish (groovy love child) Kiss me (baby  
love child) One more time
