My times up
And I don't care how I feel
I just don't care
I just don't care

And everything dull has
Come at light to see you
And everything dull has
Come at light to see you
Come at light to see you

Pray that you don't
Leave me all alone
The flashing lights
Here to take my love
Here to take my love

No gleaming lights in the sky now
Do you wish the [Incomprehensible] could be yours?
You look so dead, did you ever
Rejoice of a young girl in my youth?

No gleaming lights in sky
Do you wonder
What your life could have been

No gleaming stars in the sky now
Rejoice of a young girl in my youth

Come with me dear, how I dare you
The oceans will fall and kill us all
