[Chorus - Abstract Rude & Mikah 9] [2x] Whoa whoa whoa, Yeah yeah yeah

[Aceyalone]

So it's united we stand and divided we fall
Tighter than all of y'all, but reality's calling y'all
I looked but I didn't hear, I heard but I didn't listen
I listened and finally heard the final word and it
Took me by the hand, led me on the way
Showed me the door and, told me which way to walk
Told me don't look back, but I had to take a chance (I had to take a chance)

They said the road was bumpy but you gotta advance You gotta take a chance, and don't take shorts You gotta learn to dance and take a life with your hands

But don't take off quick, even though you can
I take it it's whatever it takes, and take it like a man
I hope you take the time to put the needle to the jam
And don't take it for granted, or take it wrong
I'll be with you when I ain't with you take it strong
So we can take this opportunity, to show you the unity
Between the earth the sun the moon and we
Soon to be free, from the pain of dying
I don't complain, I just keep my plane flying through the
rain

Through turbulence, and the stormiest weather We do a song do a show and get paid, whatever We birds of a freestyle feather never forget The reason why the mind's so broad (so broad) And it's only by the grace of God And it make you say

[Chorus]
