I've seen a picture from the Days Gone By  
Lookin' worn and withered, I heard a lonely cry  
Of what could have been  
And what wasn't quite  
Now I'm swearin' to the wind  
We were doin' it right

Here in the night, so far away from it all  
Out of my sight, how far down did we fall?  
From grace created  
Oh how we related  
In the picture from the days  
The Days Gone By

You were letting your friends, get in the upper hand  
I had to turn the other way  
You could not understand  
And now we're out on our own  
You have to wonder what lasts  
When all that's left to recognize  
Is a scene from the past  
(repeat)

Here in the night, so far away from it all  
Out of my sight, how far down did we fall?  
How far down did we fall?  
How far down did we fall?  
(In the Days Gone By)
