"Night Flight"

Visit "[Night Flight](#)" on MotoLyrics.com

See you soon I leave you now in the rain
What a commonplace
Dry your eyes and wring my mind again
We've spent some good time

I see the evening coming
Over the lane
And each evening coming darling
Is a new song

X2

Let's take a night flight
Levitation
With an old car
And a road sailor

Nowhere to go
And there's no shame
Don't need to know

With one hand on the gearbox
Let's take a night flight
And drop some stardust
Under the moonlight

Under the moonlight
