

## The Posies

### "Love Letter Boxes"

Something 'bout the whiteness of the phone  
Something 'bout the genius of modern music  
How can I think  
How can I fail you?  
Something 'bout the distance to the nerve  
Something 'bout white hands of fate I don't deserve  
The bedroom ghosts

How long to sleep  
Perchance to drown  
We have been old together  
No inside joke, this I won't tolerate  
I see you clearly  
Ah, love letter boxes  
All in favor say I will blindly  
Follow the ring around the positive sign

Something 'bout the history of the jews  
Beautiful one don't read too much into clues  
Please shake the hand of the velvet glove  
Whose fingerprints glow in the dark  
And reveal crimes both brave and strange

I cannot tell you how to tell the truth  
Even if it hits you  
Ah, love letter boxes  
All in favor say I will blindly  
Follow the ring around the positive sign  
Positive sign  
'round the positive sign  
Positive sign  
Positive sign
