Outside my window, rain fallin' down
Call for my woman, nowhere around
I hear laughter out in the hall
Outside my window I see nothin' at all

How long I wonder, can this go on?
I had it all, now it is gone
I feel so lonely here with the blues
I never knew I had so much to lose, yeah, yeah

There's a star in the night and it's shinin' so bright
I could swear it was callin' to me
There's a hope in my heart that is broken apart
And the pain for a moment is free

Oh, outside my window there's a light shinin' bright
And it keeps on callin' me into the night
Outside my window, somethin' callin' me, yeah
Outside my window, someone waits for me, yeah

I feel so lonely, life got me down
I call all my friends but they're all out of town
I keep on searchin', tryin' to find
Someone to love me, let me ease my worried mind,
yeah

There's a star in the night and it's shinin' so bright
I could swear it was callin' to me
And the hope in my heart that is broken apart
And the pain for a moment is free

Oh, outside my window there's a light shinin' bright
And it keeps on callin' me into the night
Outside my window, somethin' callin' me, yeah
Outside my window, someone waits for me, yeah, yeah
