Wake up, Moma, chase my blues away
I said, wake up Moma, take my blues away
It's 2 o'clock in the morning
And I've had a busy day

I said wake up baby, I need a little company
Wake up baby, just need some company
The blues got me so bad, I'm in misery
I said, wake up Moma

Wake up baby, before the night is gone
I said, wake up baby, before the night is gone
You're a real good woman
But you sleep too long

Wake up Moma, time to rise and shine
Wake up Moma, know it's time to rise and shine
You make love so good to me, baby
Make me feel so fine

Wake up baby
