Oh we can do it in the mirror,
All I wanna do is see you girl
Let's do it in the mirror, yeah
Let's do it in the mirror

Bring your body here girl,
I got something I wanna do to it, yehe
I'ma make tonight incredible
Girl it's gonn be your night, you won't forget it
Turn around for me baby
Be right there baby, keep it right there
The reflection of your body looking crazy
Come on get it girl, get it like it when you're going
Up and down, down, down, down
You be going round, round, round
And I ain't tryina be nasty with you
I'm tryina be honest
Uh, you gonn love it when you turn around, I promise
I can see us in the ceiling, you can see us in the
headboard
And don't be scared to look, girl that's what it's there
for
Back it up and throw it to me
The way we do it baby, we should make a movie

Let's do it in the mirror, mirror, mirror, mirror, oho
So I can see your body clearer, clearer, clearer, clearer
Wax on, wax off, no streeds, I wanna see it all
I'ma beat it up, up, up, till you get enough
Baby girl you know what it is
Let's do it in the mirror

I'ma 'in your body, yeah, beat it like a cop
Give it to you good till you tell me to stop
Baby grind it, baby grind it
Act like you from Jamaica girl wind it
You got that killer, killer, killer, killer
Wax on, wax off
Girl you the iller, iller, iller, iller,
Gonna squeeze it, it's so soft
When you going up and down, down, down, down

You be going round, round, round
And I ain't tryina be nasty with you
I'm tryina be honest
Uh, you gonn love it when you turn around, I promise
I can see us in the ceiling, you can see us in the
headboard
And don't be scared to look, girl that's what it's there
for
Back it up and throw it to me
The way we do it baby, we should make a movie

Let's do it in the mirror, mirror, mirror, mirror, oho
So I can see your body clearer, clearer, clearer, clearer
Wax on, wax off, no streeds, I wanna see it all
I'ma beat it up, up, up, till you get enough
Baby girl you know what it is
Let's do it in the mirror

Uh, this is the part where I break it down, break it down,
down
This is the part that I give it, give it, give it
Give it slow, oh, so slow, yeah
And then I speed it up, oh, speed it up oh
And then I speed it up, oh, speed it up oh

Let's do it in the mirror, mirror, mirror, mirror, oho
So I can see your body clearer, clearer, clearer, clearer
Wax on, wax off, no streeds, I wanna see it all
I'ma beat it up, up, up, till you get enough
Baby girl you know what it is
Let's do it in the mirror

Turn around and let me see you do it
Girl you gotta put your back into it, yeah, yeah
Look in the mirror girl
Girl I like it when I see you do it
But you gotta put your back into it
Yeah, yeah, look in the mirror baby.
