"Stay"

A tide inside your heart  
Keeps rising in the dark  
Surrounds you like an ocean  
And you can't keep from going under  
Somewhere in the deep  
I find you half asleep  
'Cause I will never leave you  
I will not forsake you

[Chorus:]

I will stay  
Here with you while you fall  
I won't say  
Anything, anything at all  
I will stay

When all the empty words  
Won't take away the hurt  
Even everything is broken  
All the wounds are open  
I'll be here  
A shoulder you can cry on  
A friend you can rely on  
In between the shadows  
Where no one else will follow

[Chorus:]

I will stay  
Here with you while you fall  
I won't say  
Anything, anything at all  
I will stay

[Repeat]

[Chorus:]

I will stay  
Here with you while you fall  
I won't say  
Anything, anything at all  
I will stay
