I know, I know  
It's been a bit much to mend  
when I'm here and you're there  
Emotions everywhere  
Tip-toeing on the shattered pieces of your heart  
Until I can find the way to put it back together

Chorus:

And we gotta find a reason for love  
Cause that's what we do, that's what we do  
And I gotta find a way to your trust  
Baby lock and key is just you and me  
Girl, we've searched time and time again  
And what we found through it all  
We all fighting for the same cause  
Cause we love yeah!  
We love from a different place, and a different way oh  
But love, in any case it's all the same  
And I really know is I need you  
And I never wanna' do this without you  
Cause we love, and that's reason to love, yeah  
Cause we love!

Girl, I know how it goes  
Space between us makes this harder than ever before  
But these moments are to treasure  
So whenever we are close,  
we can't expect to make the most  
Of what it is we share, let's take it there, without a care

Chorus:

And we gotta find a reason for love  
Cause that's what we do, that's what we do  
And I gotta find a way to your trust  
Baby lock and key is just you and me  
Girl, we've searched time and time again  
And what we found through it all  
We all fighting for the same cause  
Cause we love yeah!  
We love from a different place, and a different way oh

But love, in any case it's all the same  
And I really know is I need you  
And I never wanna' do this without you  
Cause we love, and that's reason to love, yeah  
Cause we love!

You love me this way, and I love you that way  
It's alright!  
Just as long as we're loving each other  
Without you I'd be so inferior!  
Besides, I need you in my life  
Cause we love baby, we love baby

Chorus:  
We love from a different place, and a different way oh  
But love, in any case it's all the same  
And I really know is I need you  
And I never wanna' do this without you  
Cause we love, and that's reason to love, yeah  
Cause we love!
