(Verse)

The alarm is going off again  
And I can't find the strength within  
To get myself to get up out the bed  
And I can't find my keys

(Verse)

And I'm sick of feeling like this  
Every single morning  
Far more than a sit back  
With the covers over my head

(Chorus)

Trying to get fired  
So I won't have to quit  
Don't wanna spend my nights  
Working the grave yard shift  
And I'm so sick and tired  
Yeah I'm over it  
I'm calling this an early retirement

(Talking)

Come on man quit your singing and get back to work  
Uhh, quit your singing and get back to work  
Get bent

Stubbing on my finger working thing that I'm above it  
It's just like Johnny Paycheck said :  
"Take this job and shove it"  
I rather be anywhere but here

(Chorus)

Trying to get fired  
So I won't have to quit  
Don't wanna spend my nights  
Working the grave yard shift  
And I'm so sick and tired  
Yeah I'm over it  
I'm calling this an early retirement

(Bridge)

I rather be anywhere else  
I rather be anywhere but here

(Talking)

I'm sick of all you punk kids  
Sitting around doing nothing  
Singing little songs to yourselves  
What's a matter with you  
Get your crap and get out of here  
You're fired  
Okay, well first of all you can't fire me because I quit  
Wait up wait up, fired? Dude consider me roasted

(Chorus)

Trying to get by it  
So I won't have to quit  
Don't wanna spend my nights  
Working the grave yard shift  
And I'm so sick and tired  
Yeah I'm over it  
I'm calling this an early retirement

That's it I quit
