(Fred Rose)

I'm drifting into deep water

I'm startin' to care for you

You're getting me in deep water

Be careful what you do.

You wanna romance but I'm seeking love

I know I'll regret it when it ends

I'm winding off in deep water

Why can't we just be friends?

--- Instrumental ---

It's restless in this deep water

I'm lost between right and wrong

My love is true as deep water

Your love won't last this long.

Where will it lead me and where will it end

I can't help but wish I only knew

I'm winding up in deep water

So deep in love with you...
