My heart is breaking darling and many tears are falling
Falling, falling, falling just for you
My eyes are burning darling while my heart is sad and
yearning
Yearning, yearning, burning just for you.

You didn't have to go and leave me all alone
I'm sure you think that breaking hearts is fun
But someday you may find out when your new love is
gone
That deep down in your heart I'm still the one.

I need you with me darling always with me darling
Need you, need you, need you I'm so blue
Oh, hear my calling darling and stop these tears from
falling
Falling, falling, falling just for you.

Falling, falling, falling just for you...
