The sun just went behind the clouds there's darkness
all around me now
For I've just destroyed the world I'm living in
I broke her so many times and now at last I've broken
mine
I've just destroyed the world I'm living in

What made me think that I could go on hurting her
I should have known there'd have to be an end
But fools in love I thought by fate they never learn till
it's too late
And I've just destroyed the world I'm living in
[steel - fiddle]
What made me think that I could go on hurting her...
