(Bob Wills)

The kind of love I can't forget dear  
Was the love you gave to me  
I had my chance and now I suffer  
My heart is filled with misery.

Your heart was kind and oh, so faithful  
It should have never known distress  
And then my sorrow I am weeping  
Though you don't care I must confess.

--- Instrumental ---

So why not take me back again  
Dear, we could live so happily  
The kind of love I can't forget, dear  
Was the love you gave to me...
