(It's a thing called sadness)  
It's been here since you've been gone  
It's been hanging round too long  
A thing called sadness not much of a friend  
When you walked out, it walked in

In every chair where I sit down  
It follows me all over town  
A thing called sadness not much of a friend  
When you walked out, it walked in

What in the world am I gonna do?  
This old friend can't take the place of you  
It only brings back memories of you  
And all the things that we used to do

In every chair where I sit down  
It follows me all over town  
A thing called sadness not much of a friend  
When you walked out, it walked in
