I call you on the phone but to me you're not at home  
Even though your name is still the same as mine  
Your thoughts are not of me and everyone can see  
That someone else is taking up your time

Oh, I will always love you though you break my heart  
each day  
I'll go right on caring, dear in the same heart aching  
way  
I know that you're not thinking of how you broke my  
heart  
But I will always love you till death do us part

Oh, I will always love you though you break my heart  
each day  
I'll go right on caring, dear in the same heart aching  
way  
I know that you're not thinking of how you broke my  
heart  
But I will always love you till death do us part
