You might take to drinkin and not know when to quit
Probably blow all your money, not save a cent
And you might let some good things pass you right by
cause you were too busy sleepwalking through life and
chasin the wrong kind of dreams, when you're crazy
like me.

And you'll do a whole lot of thinking bout what might
have been. And each time you find a good woman, you
just loose one again. You'll have a bad habit of feelin
like hell, an nursing old heartaches you brought on
yourself. You create your own misery when you're crazy
like me.

When you're crazy like me you think about no one but
you. You might have it all and carry on like you've got
nothing to lose. Then you wake up one morning and
realize you've lost everything, when you're crazy like
me.

Yeah when you're crazy like me you stand up and curse
the lords name. And you'll be looking round and
hunting down somebody else you can blame. And I
hope you like lonely, cause lonely's all you'll ever
be when you're crazy like me
