I could tell you that I missed you
Say it's good to be home
And that it's hell out there without you
And it's hard to sleep alone

I could say I missed the feelin'
Of your lips on mine
Tell you everything's right in my world
When it's just you and I

And I could stare at you forever
Girl, I could go on and on
But I didn't come here to talk

I could whisper you're my angel
'Cause that's sure what I'm thinking now
But I'd rather tell you that I love you
Without a word from my mouth

Now, I love a good conversation
And your body's talking to me
It's sayin' once might not quite be enough
And I'd say I have to agree

And you're lookin' fine in that dress
Here, let me help you slip it off
I didn't come here to talk

Baby, lay down here in my arms
Let me show you what I've waited on
Oh, sometimes, girl
There's no need for words at all

I didn't come here to talk
Come here, baby
