Take my hand
I'm a stranger but I love you
Hold me don't be scared
I really need you now

Cause I'm really glad that I met you (my baby)
This is the start of something new
So come now my baby, baby get close to me
Because I really need you now
I have waited so long just for this moment
Love the
Love, Love, Love,
Love, she

I want you
Don't be mad becuae I want you
I want you
Yes I really do baby
I want you
Don't be sad because I want you
