Come around my way babe  
Baby, baby, baby

I been missing you baby  
I been missing your heavenly eyes  
I was thinking that maybe  
You'd wanna go home and play awhile with me

I been wanting to touch you  
I been wanting to spend a little time  
I been dying to make love to you again like we did last  
night

So baby want you. . .  
Ooh, come around my way, baby stop by  
Oh yea

Ooh, come around my way, baby stop by

I ain't never had a bad love  
Feel so good in all my life  
I realize now I love ya  
And that I don't never say good-bye

Cause ever since the first time  
You've been blowing my mind  
You got me up in cloud nine  
Falling deeper in love with you

Your love is so amazing  
You got me going crazy  
Falling head over heels for you

Ooh, come around my way, baby stop by  
Ooh, come around my way, baby stop by  
Ooh, come around my way, baby stop by  
Ooh, come around my way, baby stop by

The sun shines much brighter  
Baby now that you've come my way  
I just can't get over

The way that this love is making me feel

Ooh, come around my way, baby stop by  
Baby, stop on by, stop on by yeah  
Ooh, come around my way, baby stop by  
Hey!

(I wanna, I gotta get it, let me do it, come on babe)  
Come around my way, baby stop by  
(I wanna, I gotta get it, let me do it, come on babe)  
Come around my way, baby stop by

Ooh, come around my way, baby stop by  
Ooh, come around my way, baby stop by

Say, I wanna, let me get it, baby do it come on baby  
Say, I wanna, let me get it, baby do it come on baby  
My way, my way, my way

Say, I wanna, let me get it, baby do it come on baby  
Say, I wanna, let me get it, baby do it come on baby
