Love me  
Leave me  
Do what you will

Please don't  
Please don't  
Forget me dear

You can burn all the evidence  
Build walls around the fence  
Hide my letters in a box  
Tighten up the bedroom locks, dear, oh dear

Please don't  
Please don't  
Forget me dear

You can tell your friends that i'm a fool  
Choose your weapon pick your tool, oh dear  
You can throw my things far out the door  
Take it all, come back for more oh dear

Love me  
Leave me  
Do what you will

Why oh dear  
It hurt so bad  
Don't forget what we once had, here  
Oh dear

Please don't  
Please don't  
Forget me dear
