"Pole Cat"

My baby took a polecat, swung it around her head
Threw it off in the wood said ?I smell like you now, so
let's go to bed

My baby took a polecat she swung it around her head
She threw it off in the woods she said ?
I smell like you now so let's go to bed

She said I don't want no champagne, I don't want no
gin
That thing that you do, I want you to do that again
She said ?I don't want no champagne? she said ?I don't
want no gin
That thing that you do, I want you to do that again?

After I done what she wanted
She rolled a cigarette with one hand
She struck a match on my bottom
And said ?Now don't run off I might want to do this
again?

After I done what she wanted, she rolled a cigarette
She struck a match on my bottom
And said ?Now don't run off I might want to do this
again?
Go on out there and fetch me another pole cat
