(Chorus)

I ain't the one you wanna mess with
I'm known for leavin bitches headless
If you got what it takes, Step up bitch
Don't test the best, Wicked bitch of the southwest

I'm that sick bitch killa from the 505
And with my boy by my side, You ain't leavin alive
I take pride, While you die, Just like the rest
Don't test the best, Wicked bitch of the southwest

(Verse 1)

I'm that dead bitch that you probally heard about
My rhymes shine red cause I chew razors in my mouth
When I spit I bleed all over mainstream shit
I'll fuck your bitch, Bite off her clit
Cause I'm a sexual demented luna-tic-tock
Hear the sound of my glock
To the side of your dome
Bitch your about to get...
Don't mess with the best is what I highly suggest
And don't provok the 6 demons that grown inside my
chest
And posess me to go on a murder spree
And destroy cunt bitches that pretend and wanna to be
me
Wheres your creativity, Quit looking up to me
But then bitches can't consieve individuality

(Chorus)

I ain't the one you wanna mess with
I'm known for leavin bitches headless
If you got what it takes step up bitch
Don't test the best, Wicked bitch of the southwest

I'm that sick bitch killa from the 505
And with my boy by my side, You ain't leavin alive
I take pride, While you die, Just like the rest
Don't test the best, Wicked bitch of the southwest

(Verse 2)

I ain't conceited motherfucker, I ain't got no reason to

be
I just calls it how I see it, Obvious, Apparently
I'm like fuck popularity, Underground for life
And if you don't like my words or actions
Slit your wrist with a knife
Cause I make ears bleed
I'm quick to cause a murder scene
On your knees, Kiss my feet
Treat this bitch like royalty
I'm knee deep in devotion
I don't need your damn promotion
How about you fuck yourself
Or go drown in an ocean
Cause I'm sick of these stupid bitches riding my dick
Thats if I had one, You'd be quick to give it a lick
From the base to the tip
You got some shit on your lip
Lick it up and like it bitch
Like a champ don't twitch
And the haters..Fuck you haters
You just wanna be me
Secretly bumpin my shit, Wishin your bitch was me
You are the only enemy
And I held sense of mistress of death
And wicked bitch of the southwest

(Interlude)

Now into this candle spell
Bring my enemy 3 nights of hell
Candle black, Black as night
Bring them pain of flesh tonight

Legions under skin will grow
I hit them with a painful blow
Sores and pain inflict them now
439 so wonder how
King of darkness, King of hell
Smight my enemy bring them hell
All my haters, listen dwell
Cause now your cursed under my spell

(Chorus)

I ain't the one you wanna mess with
I'm known for leavin bitches headless
If you got what it takes step up bitch
Don't test the best, Wicked bitch of the southwest

I'm that sick bitch killa from the 505
And with my boy by my side, You ain't leavin alive
I take pride, While you die, Just like the rest
Don't test the best, Wicked bitch of the southwest

(Verse 3)

I get hate out there sayin I'm a bitch or I'm a slut
I see guys say they hate bitch rappers and I suck
But I really don't give fuck
The hate toughens me up
Adding feul to my mind and showin motherfuckers up
So now you wanna colab, Your crew consist of fags
I'm just bein honest, Then you talk shit behind my back
I got some homies at that, who can act to your face in
one hack
No fakes, No gimicks, And no hiding behind mask
So fuckin step up your game, And quit depending on
fame
To gain the respect and the love you oh so badly crave
Fuck your money, Fuck your name, I'll waiting for you in
hell
Find out, Dead girl, Superstar, Razakel

(Chorus) (3x)

I ain't the one you wanna mess with
I'm known for leavin bitches headless
If you got what it takes step up bitch
Don't test the best, Wicked bitch of the southwest

I'm that sick bitch killa from the 505
And with my boys by my side, You ain't leavin alive
I take pride, While you die, Just like the rest
Don't test the best, Wicked bitch of the southwest
