1 2 3 4 5 6 7

I'm floating in a constant heaven

1 2 3 4 5 6 7

I'm floating in a constant heaven

I can't believe you came here today

And took me away

And you took me away

I can't believe you came here today

And took me away

Took me away

And if you focus very hard

The train will come for you at last

And if you're stuck out on the yard

I can't believe you came here today

And took me away

And you took me away

Too much condition and not enough game

It's driving me insane

Driving me insane

And if you focus very hard

The train will come for you at last

And if you're stuck out on the yard

1 2 3 4 5 6 7

I'm floating in a constant heaven

1 2 3 4 5 6 7

I'm floating in a constant heaven
