

Raze "Change"

Visit "[Change](#)" on MotoLyrics.com

The closer I walk along this path with Thee
I realize I'm not what I seem
I'm not perfect, I know it's true
I wanna walk the way You want me to

But it took some time for me to see
What I really need is change

Change, change
Lord please help me to change
Change, change
I need You, Lord
Help me to change

You understand my purpose
You understand my dreams
You see inside there is a longing
For a relationship that's real

Change, change
Lord please help me to change
Change, change
I need You, Lord
Help me to change

Now I find that as I draw near
The evidence grows strangely clear
To achieve a closeness will require a change in me
I don't know what You see in me
But the love of You releases me
Closer still I find there's a place for me

Change, change
Lord please help me to change
Change, change
I need You, Lord
Help me to change
