You said I hurt you  
The pain I feel still burns  
You said I neglect you let things by with no concern  
You said that I don't care  
What the hell do you want from me  
You said I ruined you  
Don't you see what you've done to me  
You said I wasted  
These years gone down unjust  
You fucking tasted  
And left me in the dust  
You said you hate me  
You should have left me behind  
The fact is you've mistook me  
Now there's nothing left to find  
When I fill you up, I cheat myself  
When I start you up, I beat myself  
When I let you go, I kill myself  
Can you rip me from this hell  
It's only fair!
