be creative with your sperm by Hara'kiri  
The holy bible already said so  
please don't spoil your seed  
it is way to important  
it is real magic indeed

You can make some real art out of it  
the resource of great creators  
you cannot only make a kid  
but you can draw some alligators

You can paint whatever you like  
make some really great designs  
you only need a bit of concentration  
If you want to pull some straight lines

And if you're planning  
to make a real big piece of art  
be disciplined for a few weeks  
and save real hard

The result is a big explosion  
attended by the soundtrack of your groans  
a piece of art in motion  
astonishing to the bones

So this is what I wanted to say  
give your ideas a chance to germ  
go ahead and play  
be creative with your sperm

(c) Hara'kiri
