speed by Hara'kiri
So sorry I can't listen
To the story of your life
I know you are my best friend
But can't you talk to your wife

Hurry, hurry, hurry
I'm going to be late
Get out of my way right now
Don't wanna miss my date

So sorry I can't help you
On this miserable day
But I have an important meeting
And should be already on my way

So sorry that I killed you
But you were in front of my car
I had to increase the speed
And now you're part of the tar.
