she's mass destruction  
forces induction  
no repercussions  
she's got to have one  
through repetition  
brings joy by friction  
she never wanted  
she never wanted  
she rules desire  
by force of fire  
this violent mind  
this violent mind  
no conversation  
just pure deception  
pure lust defined  
pure lust defined  
sharp execution  
extreme exertion  
never exhaustion  
just pure addition  
no confrontation  
no blank permission  
she can't control  
she can't control  
her exhibition  
raw as it could be  
her deprivation  
I never could believe  
this malediction  
no where to run  
the painful truth is that  
it exists in everyone  
can't find the escape  
search for the outbreak  
no way to terminate  
no way to terminate  
too overwhelming  
too overpowering  
desecrate, violate  
excruciate, dominate
