"If You Know What I Know"

Visit "[If You Know What I Know](#)" on MotoLyrics.com

Up here with all the famous faces
You always knew your looks would take you places
Now every word sounds like a sinister whisper
Pretty faces look like ugly blisters

You know I'll never give a damn about it
You know I'll never change my mind about it
You know I'll never give a fuck about it
Nor would you if you know what I know
Nor would you if you know what I know

Cos darlin' so much ambition only turns your soul into a
dirty rhythm
You spend your nights with a cold cold shiver and it
turns your face to stone
Oh yes it turns your face to stone

But I'll never give a damn about it
You know I'll never change my mind about it
You know I'll never give a fuck about it
Nor would you if you know what I know
Nor would you if you know what I know

Nor would you if you know what I know
Nor would you if you know what I know
Nor would you if you know what I know
Nor would you if you know what I know
