Backstabbit turncoat  
I caught you in the act  
lowdown lying scumbag  
I'm gonna break your back  
you thought that you could pull it off  
but I saw through your game  
now my hands are on your throat  
you've got yourself to blame  
Violent restitution: you ain't seen nothing yet  
violent restitution: I'm playing back the clebt

First I choke you 'til you puke  
then I'll gouge your eyes  
then it's time to break your spine  
my promices aren't lies  
and when you think it's over  
and my debt in paid  
I'll smash your face to pieces  
with my trusty spade

Here I come  
now you're dead  
get your woman  
in my bed  
now I laugh  
while you cry  
it's been fun  
but now you die... DIE!
