Run away, Run away  
Run away and save your life  
Run away, run away  
Run away if you want to survive

Money,sex, in full control  
A generation without soul  
Perfect people in a perfect world  
Behind closed doors all in control  
Live, in a world of luxury  
Cold cash money mentality  
You gotta keep the faith  
You gotta keep the faith  
you better keep the faith and run away

Run away, run away  
Run away and save your life  
Run away, Run away  
Run away if you want to survive

It's time to break free,  
Oh oh oh oh, run away, oh oh oh oh  
You better break free,  
Oh oh oh oh, run away, oh oh oh oh

Money,sex,in full control  
Look, big brother is watching you  
Unlock your brain and save your soul  
No more limits, no more curfew  
Life in the perfect system  
Take a stand and fight for freedom  
Keep the faith, you gotta keep the faith  
You better keep the faith and run away

Run away, run away  
Run away and save your life

Run away, Run away  
Run away if you want to survive

Run away, run away  
Run away and save your life  
Run away, Run away  
Run away if you want to survive

Run away, run away  
Run away and save your life  
Run away, Run away  
Run away if you want to survive

Run away, run away  
Run away and save your life  
Run away, Run away  
Run away if you want to survive

It's time to break free,  
Oh oh oh oh, run away, oh oh oh oh  
You better break free,  
Oh oh oh oh, run away, oh oh oh oh

Keep the faith, you gotta keep the faith  
You better keep the faith and run away

Keep the faith, you gotta keep the faith  
You better keep the faith and run away
