If i ?
Through another night
I will promise you
Im never going back again
If i ?, i'll make it through this night
I will give it upto lay in your arms again
If i ?
Chours
When im in your arms
You show i can
Change all the mistakes ive made in my past
When im in your arms
You understand help me see who i really am
When im in your arms, when im in your arms
Its getting hard to breath
My bones are killing me
I can't get to sleep tonight
Im looking at the scars running down my arms
I think im getting sick again
(chours)
I will promise you
I'll never leave your side again
I will promise you
I will always stay in your arms
In your arms
(chours)
(when im in your arms) repeated
