There's a street outside my window  
There's a light outside my door  
There's a road straight through this old town  
There's a boat on every shore  
There's a promise down the freeway  
But there is no guarantees  
There are dreads on every ocean  
There are storms on every sea...  
..If you choose to go  
Now I've been out upon that ocean  
Sometimes not even past my waistline  
And I screamed at what I saw  
Many times along that freeway  
Returning sometimes beat  
Ah there are dreams out on that ocean  
There are storms on every sea...  
..If you choose to go  
Plenty of places, plenty of things to see  
Plenty of faces, plenty of ways to be  
..If you choose to go
