Well you open that bottle of wine  
you over care the worms every time  
now you don't stop, that ain't true  
never said a word, I never had to  
it was my attitude  
that you thought was rude  
it was my attitude

Old habits are hard to break  
and I don't know how much I can take  
what I think is on the tip  
of my tongue oh I let it slip  
it was my attitude  
that you thought was rude  
it was my attitude  
that you thought was rude

Remember sitting back in school  
I held my tongue up  
till that tongue loose  
they said they hated attitude

You just failed my test  
cause I know you be the best  
so wipe me off as you conclude  
I'll be obedient is what I can't use  
I got an attitude

I got an attitude

Said I had an attitude  
said I had an attitude  
said I had an attitude  
an attitude  
said I had an attitude
