

The Replacements

"Satellite"

Visit "[Satellite](#)" on MotoLyrics.com

Thirty more channels than you need
I could tune in free
Some rabbit ears, some foil in a hanger

Static on channel 13 cleared long enough for a scene
A jet flew over head and it faded

Couldn't find you any place upon my screen
Bought a satellite, bought a satellite, bought a satellite
... satellite

Dug up from the depths of ? ? ? , sewer southern flow
A boy I couldn't name, I knew well
? ? ? still a rambler, useless to my call
You're nowhere to be found on the airwaves

Couldn't find you any place upon my screen
Bought a satellite, bought a satellite, bought a satellite
... satellite

So far from my reach
Close enough to see
I sleep beside the set at night and I can't let you leave

(guitar solo)

Couldn't find you any place upon my screen
Need to (spy? ? ?) and I'm coming for your love over
there
Nothing along the ? ? ? ? ?
Nothing I want to see but your face

Couldn't find you any place upon my screen
Bought a satellite (repeat)
