Ending your disgusting life
The bible says I've got the right
Crushing your cum sucking skull
Your faggot brains splash on the wall
The law will never make me pay
For helping slow the spread of AIDS
I don't think I'm tempting fate
God I love promoting hate
Accept me I am energy what comes around
Suck my fist ya little queen
Feel my boot down in between
I leave you alone to bleed
I'm the last man you'll ever need
I'm beginning to lose weight
Color fading from my face
It's getting so I cannot breathe
What the fuck's coming over me
Final seconds of life, cutting of reflective light
Eyes are finally open wide, I never let a soul inside
Death welcomes the real me, last breath couldn't
Wait to leave, the real disease is hate
If you play God accept your fate
