

## Reaction 7 "Big One"

Visit "[Big One](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Age of knowledge data power  
Learning more and more each hour  
Driven men with ideology  
They ignored the earth's ecology

Now we suffer it's the end  
And nobody is your friend  
We must fight if to survive  
Or no one will be alive

Lets make a plan to get away  
We must survive that's what I say  
There's life out there among the stars  
And I just heard there's some not too far

Lets cut a deal to grab their land  
If we must live from mouth to hand  
Its better there than die alone  
I'll take my chances far from home
