I'm packing my crap and I'm leaving today
Just load up the trunk and drive right away
Might leave you a note right out in plain sight
So that you can read it and know that I'm right

Have to find a new girl
Someone to treat me right
I need a place to stay
Tonight

And now that I'm driving out here in the snow
Oh man am I stupid, there's nowhere to go
Just two lonely dollars and not that much gas
I'd better be thinking of something real fast

Have to find a new girl
Someone to treat me right
I need a place to stay
Tonight

Now where was I? Oh yeah

I'm packing my crap and I'm going away
I'm grabbing the car keys get out of my way
I'm packing my crap and I'm leaving today
Just load up the trunk and drive right away

I'm packing my crap and I'm going away
I'm grabbing the car keys get out of my way
I'm packing my crap and I'm leaving today
Just load up the trunk and drive right away
