

Reaction 7 "Jayl"

Visit "[Jayl](#)" on MotoLyrics.com

Wake up in the morning but you don't know where
Yes your head is throbbing but why do you care
Why are all those bars there guarding the way
Then you see the jailer so you got to say

What did I do
Are they in ICU
Can I get a call

You're in this room and its so very small
One lonely cot lots of bars and the wall
Only time to think and you come to reflect
But you're in there now but what did you expect

Jayl and its life and its life and its jayl
Jayl and its life and its life and its jayl
Jayl and its life and its life and its jayl
Jayl and its life and its life and its jayl
