People scurry too and fro
Endless city ebb and flow
Scooters going here and there
There's pedestrians everywhere

Grab a bus take a seat
Ride it up and down the street
All the signs are in Chinese
Dui bu qi if you please
Hop on off and grab a cab
If bu hui shuo then you don't gab
Move aside and step away
Millions walking in Taipei

People scurry too and fro
Endless city ebb and flow
Scooters going here and there
There's pedestrians everywhere

If you waiguoren you feel strange
That crazy talk makes you deranged
You start to feel bu hen hao
Ready for that fast flight out
So may people everywhere
They look at you but they don't care
Move aside and step away
Millions walking in Taipei

People scurry too and fro
Endless city ebb and flow
Scooters going here and there
There's pedestrians everywhere
