I'm waiting here  
Where it's not allowed  
You ought to come  
And make your mama proud  
I'm standing here  
Because I'm not afraid  
I'll push you aside  
If you get in my way

You're only talk  
Acting like I'm scared  
But the others know  
So you best beware  
Don't need the boys  
I'm gonna track you down  
Now if you're smart  
You'll get out of town

You're only talk only talk only talk  
You're only talk only talk only talk  
You're only talk only talk only talk  
You'd better walk better walk better walk

I spent my life  
Watching fools like you  
You come around  
You won't know what to do  
I'll hurt you bad  
Hope you like the pain  
Watch you fall down  
You're crying once again

You're only talk only talk only talk  
You're only talk only talk only talk  
You're only talk only talk only talk  
You'd better walk better walk better walk
