Shortest song it ain't long  
Shortest song, it ain't long

The shortest song might not be right for you.  
Only you and your doctor can decide.  
Typical side effects include temporary reduction in  
Hearing, mild headache, insomnia,  
Vomiting or upset stomach.  
If you're already listening to alternative radio,  
Let your doctor know before listening to the shortest  
song.

In some case other severe reactions may occur.  
If you suddenly become lightheaded,  
Discontinue listening and seek medical attention  
immediately.

As with all songs, there is a slight chance of  
dependency  
With repeated listening. Do not listen to the shortest  
Song if you are already pregnant or may become  
pregnant  
Or if you drink more than 10 alcoholic beverages in an  
evening.

The shortest song it ain't long
