

Reaction 7 "Subway"

I met that woman on the subway line
All my boys thinking she's so fine
I sat right down and I started to talk
Things got warm and we started to rock

Hey are you OK
What you got to say
Hey you got a phone
Tell me where you're goin'

I saw her smile with a little fear
Then she whispered in my ear
That's my number now call the home
Or reach me on my cellular phone

Hey are you OK
What you got to say
Hey you got a phone
Tell me where you're goin'

Love on a subway
Love on a subway
